The **Shot Body System** is a wearable sensor system to be used on the operator's existing clothing, load bearing vests, hats and gear in realistic deadly force simulations.

The **Shot Body System** allows Law Enforcement, military and security companies to problem-solve and fight as individuals or team members against live adversaries in realistic and dynamic encounters. It provides opportunities for the users to practice advanced gun handling skills, communication, and tactical movement under stress to increase their chances of survival in a deadly encounter. Perfect for anyone who expects realistic training in their own environments.

The **Shot Body System** is smart, but simple to use. It includes 6 different sensors to be worn on different body parts (head, torso, hands, and legs) and a special **Firefly laser**. Each sensor includes 3 different settings, providing the user with options such as differing the severity of the injuries, hits on different body locations to a "first of its kind" progression timer which gives role players 120 seconds to apply Tactical First Aid.

The **Shot body system** also offers a unique ID system with up to 5 different colors, allowing for a very easy way of multiple shooter identifications.

The **Shot Body System** can be used indoors and outdoors (in shaded areas), it is easy to use and is ready in seconds. It uses standard CR2032 batteries (included) and comes in carrying case for easy use and storage.

The **Firefly Laser** provided with the **Shot Body System**, is a Small Arms Transmitter (SAT) attaches to the picatinny rail of pistols so equipped. The Firefly is triggered by a recoil of a gun (like airsoft, UTM, Simunition etc.) or by a PTT button hidden behind the trigger of a rifle.

The Firefly employs a two IR laser system, one for close engagements, and the other for longer engagements (effective engagement range from 2 to 50 yards when aiming at center mass). The Firefly includes an allen wrench for securing the SAT to the picatinny rail.

Pistols equipped with the Firefly SAT will fit in holsters made to accommodate pistol mounted flashlights.

The picatinny rail adapter system allows the shooter to adapt the same SAT to all popular pistols or other small arms. Calibration is easy, can be done manually, or with the calibration system cable (sold separately) ensures an easy way to align the laser.

Firefly PRODUCT SPECIFICATIONS:

- Triggered by Internal vibration sensor, which is scaled and modified according to the user's platform (Accelerometer IC within the electronic circuit).
- Supports external dry fire trigger—sold separately.
- Effective laser range 2 - 50 yards
- Two IR transmitters:
 - Medium range - IR Laser Emitter.
 - Close range IR LED Emitter.
- Adjustable elevation and windage
- Battery: Non-Rechargeable standard lithium battery 3V (CR2)
- Weight: 2.4 ounces/68 gr (with battery)
- Material: Aircraft grade aluminum
- Dimensions: L 64mm (2.52") W 27mm (1.06") H 28mm (1.1")
- Sleep Mode - allows minimal power consumptions when the device is not in use
- Fixed PID, can be changed between training sessions with an optional terminal (sold separately)
- PID programming and calibration device sold separately.
- 1 year warranty

ABOUT LASER AMMO

Laser Ammo is the worldwide leader in laser base firearms training. With R&D in Israel, and sales office both in the USA and Europe, our users include military, Law Enforcement, firearms trainers, competitive and recreational shooters alike. Our product philosophy is: affordable, high quality products, that will allow any level of shooter to train anytime anywhere!

850014986506	SBS10PK	10 Pack of the shot body sensor (60 pcs) with 10 firefly lasers
850014986513	SBS5PK	5 pack of the Shot body sensors (30pc) with 5 firefly Lasers
850014986520	SBSLPK - RED	SHOT BODY 6 Sensor with firefly - Red
850014986537	SBSLPK - GREEN	SHOT BODY 6 Sensor with firefly - Green
850014986544	SBSLPK - BLUE	SHOT BODY 6 Sensor with firefly - Blue
850014986551	SBSLPK - YELLOW	SHOT BODY 6 Sensor with firefly - Yellow
850014986568	SBSLPK - PINK	SHOT BODY 6 Sensor with firefly - Pink
