

AR-15/LM4 Magazine

This magazine fits the Laser Ammo Series of Recoiling training Rifles (AR15-RIS and AR15-LM4D). This magazine is designed to meet the stringent standards of the US military and all levels of law enforcement. This magazine is physically identical to “duty” mags and are weighted to simulate a fully loaded 30-round magazine when stored or carried. Designed to fill by standard Green Gas canisters, this magazine should supply up to 150 shots on single shot, or 75 on full auto fire. The magazine, like its associated rifle, is made for repeated use and has a wide availability of replacement wear-and-tear parts available. These mags are best for customized realistic training scenarios.

Item Name	SKU:
AR-15 Spare Magazine (Green Gas) AGM / Polymer	LM4 Magazine
